Instructions

- Complete all 5 tasks using Markdown.
- Each task must be submitted as a separate .md file.
- Use clear formatting and proper Markdown syntax.
- Do not use external generators or AI-assisted Markdown tools.
- Ensure all documents render correctly in GitHub Markdown.

Submission Details

Submit **5 Markdown files** using the following naming convention:

`task_[n]_[candidate_name]_date[DDMMYYYY].md`

Examples

`task_1_personal_profile_john_doe_date23JUN2026.md`

`task_2_todo_readme_john_doe_date23JUN2026.md`

`task_3_api_documentation_john_doe_date23JUN2026.md`

`task_4_incident_report_john_doe_date23JUN2026.md`

`task_5_microservices_documentation_john_doe_date23JUN2026.md`

Task 1 — Personal Profile Document

Objective

Create a personal profile document.

Requirements

- Personal introduction
- Skills section
- Hobbies section
- Education section

Concepts Tested

- Headings
- Bold
- Italic
- Strikethrough
- Ordered Lists
- Unordered Lists

Task 2 — Project README

Objective

Create a README document for a Todo Application.

Requirements

- Project Overview
- Features
- Installation Guide
- Usage Instructions
- Sample Commands
- Repository Link

Concepts Tested

- Headings
- Lists
- Hyperlinks
- Code Blocks
- Horizontal Rules

Task 3 — REST API Documentation

Objective

Create technical documentation for a User Management API.

APIs to Document

- Login API
- Register API
- Get User API

Requirements

- Endpoint Details
- Request Headers
- Request Body
- Sample Responses
- Error Responses

Concepts Tested

- Tables
- Nested Lists
- JSON Code Blocks
- Section Organization

Task 4 — Production Incident Report

Objective

Create an incident report for a database outage lasting 45 minutes.

Requirements

- Incident Summary
- Timeline
- Impact Analysis
- Root Cause
- Resolution
- Lessons Learned

Concepts Tested

- Blockquotes
- Tables
- Checklists
- Code Blocks

Task 5 — Enterprise Microservices Documentation

Objective

Create complete documentation for a microservices-based application.

Requirements

- Architecture Overview
- Service Descriptions
- Deployment Process
- CI/CD Pipeline
- Environment Variables
- Monitoring & Logging
- Troubleshooting Guide

Concepts Tested

- Table of Contents
- Internal Links
- Mermaid Diagrams
- Tables
- Folder Structures
- Advanced Code Blocks
- Documentation Organization

Evaluation Criteria

Category		Marks
Markdown Syntax Accuracy	15	
Formatting & Structure	10	
Tables & Lists	10	
Links & References	10	
Code Blocks	10	
Technical Documentation Quality	10	
Advanced Markdown Features	10	
Task Concept Fulfillment	20	
Overall Presentation	5	

Total: 100 Marks

All the best
